

## Product launch announcement of Fixing tie – Optional accessory for the CC Holder CH-TM for robots

Dear Customer

We are pleased to announce the upcoming release of the new optional accessory “Fixing tie” exclusively designed for the cable holder CC Holder for Robots.

The CC Holder for Robots CH-TM was released in November 2021 as a cable holder to be used with every kind of collaborative robot. Since then, we have received numerous requests from customers for this optional extra.

It is expected that collaborative robot market keeps growing in future too. To meet the market demand, we will continue to enrich the lineup related to robots reflecting customers’ requests. Thank you for your support and continued business.
