

## New release Notice

### CC holder for robots Option Stabilizing adapter

---

Dear Customer,

We are pleased to inform you that we have added a new option, the stabilizing adapter to our lineup of cable holder for robots.

As the robotics market continues to expand, we commit to developing and enhancing peripheral components for robotic applications, including our cable holders.

We will make efforts to meet the evolving needs of our customers and enrich our product lineup.

Thank you for your continued support in the future.
