Quick cap
Splittable type

Protects wide variety of relay connectors from water and dust!

- General purpose
- Link connector

Model Specifications
Use oilproof type in oily environment.

## Instructions

1. Open the slit of rubber bushing and let the cable through.

2. Set the cable connection part and rubber bushing in Body B so as not to have any space between the seal part (white) and end face of rubber bushing as shown below.

3. Assemble Body A and Body B.

4. Fit the Dome nut A and B along the cable.

5. Tighten the Dome nut to fasten cable securely.

### Caution
- Assemble so that the end face of the rubber bushing does not catch on the seal part (white) of Body A. Make sure that the tab is hooked on the frame.
